rateus.space

## PROPOSAL

# More Google reviews, more repeat customers.

We help businesses gain scalable revenue and repeat customers through a simple mix of customer ratings and discounts. Studies show that **83% of customers check Google reviews** before visiting a place, and around **94% prefer a business with a higher number of ratings** over one with fewer.

If your competitor has 1,300 Google reviews and your business has 400, most customers will choose your competitor.

## HOW WE WORK

### Reviews for long-term growth, discounts for repeat visits

With our platform, you ask customers for Google reviews and offer them a discount on their next visit in return. This increases your number of Google reviews — driving scalable, long-term growth — while the next-visit discount brings customers back, giving you repeat business in the short term.

## STEP 1

# Onboard your business in 2 minutes

We've already created a login for your business, but here are the steps to onboard a new business:

- i Go to <https://rateus.space/onboard>
- ii Add your **business name**.
- iii Add your **Google review link**. You can watch this video to see how to find it: <https://www.youtube.com/watch?v=zKpXIm0mTsc>
- iv Add your **WhatsApp number** and click Continue.
- v On the next page, create your **username and password** so you can log in from any device at the counter, or your staff can log in: <https://rateus.space/login>
- vi The next screen is your **Admin dashboard**, where you can redeem codes, see total submissions, and edit your review link.

## STEP 2

## Create awareness of the discount on every table

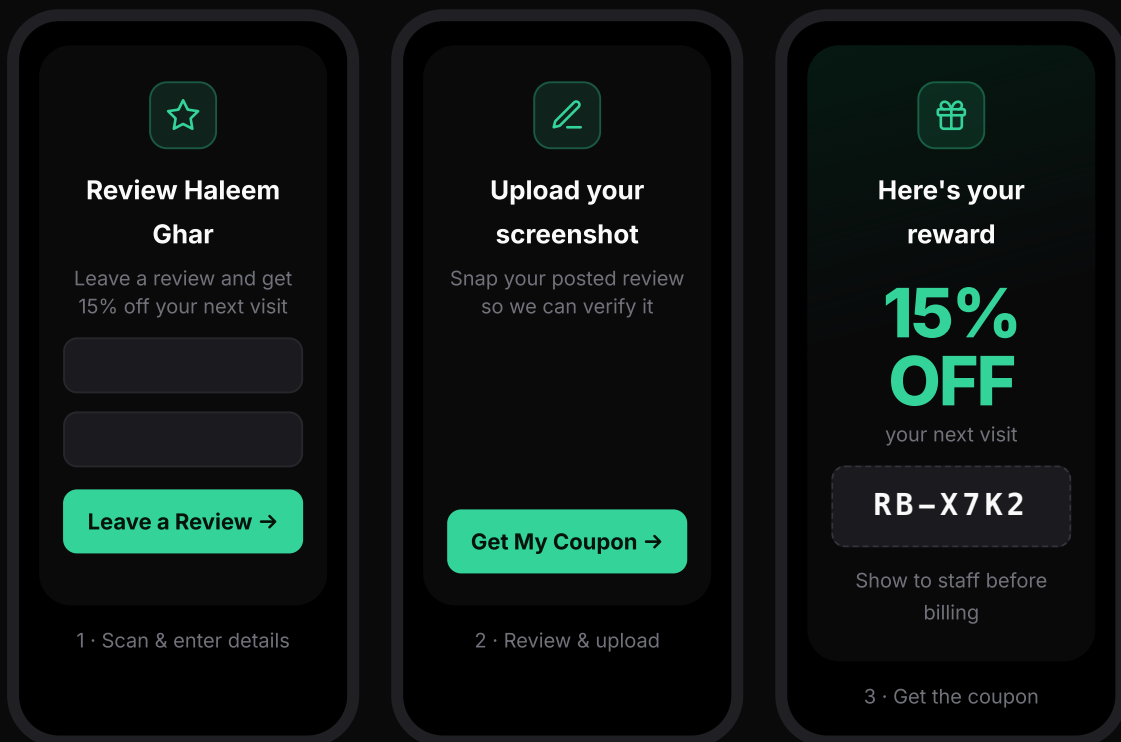

- i Download the **QR code** and place the design on each table with a message: **"Rate us on Google and get 15% off your next visit"** (or whatever discount your business is offering). A sample design is shown below.
- ii Make sure as many customers as possible know they'll get a discount for leaving a review. Staff can also be trained to remind customers that they'll receive a discount on their next visit.

Sample table-tent / QR poster (your real QR is on your dashboard)

## The customer journey to avail the discount

- i The customer scans the QR code and fills in their **name and WhatsApp number**.
- ii By clicking "**Leave a Review**", your business review page opens in a new tab. The customer posts the review and takes a screenshot.
- iii The customer uploads the screenshot of the posted review, and our AI verifies its authenticity. Once verified, a **discount coupon** is awarded, which they can save for their next visit.

- iv On the next visit, at the time of billing, the customer shows the coupon to your staff, who verify it from your **Admin space**. They simply enter the coupon to redeem it. The system shows an error if the coupon is already redeemed, expired, or incorrect.
- v On successful redemption, the **discount is applied to the total bill**.
